Petri Nets as a Visual Modeling Language

Petri nets are used to model systems by means of a graphical language(cf. **reisig2013understanding**). In specific, in this study the Petri nets are aimed to be lay-outed similar to **reisig2013understanding (reisig2013understanding)**.

Appendix

Visual vocabulary of an Elementary System Net

Figure A1. A circle depicts a place, a rectangle depicts a transition and an arrow depicts and arc. The arrow connects places with transitions and can be bent for that purpose. The green color is the standard color of the
